This web site is a Learning Management System (LMS) which is integrated with virtual classroom functionality using an advanced e-collaboration and video conferencing technology. The virtual classroom functionality allows the students and other users to join live and recorded lectures/webinars delivered by Dr. Salah Alnajem at Kuwait University. Dr. Salah Alnajem is an associate professor of Computational Linguistics and Natural Language Processing at Kuwait University. He is also the founder and CEO of Information Age for I.T. Consultations.
